

Car Share Scheme

The PA has discussed facilitating a Car Share Scheme, for parents. It was decided that trying to fully run and co-ordinate such a scheme would be nigh on impossible, due to the huge geographic spread and amount of time which would need to be spent on it. However, we are going to try something new for 07/08. All parents will receive a Car Share Scheme Slip, which they can complete and return if they would like to participate in the scheme. It may be that you do a school run to Tommies every day and have space for another student in your car. It could be that doing the school run twice a day is very difficult, so you may be able to offer a student a lift to school, in exchange for your son/daughter being given a lift home. The possibilities are endless. New Year 7 parents will be given sight of all offers of help and all help needed, when they attend the Informal Year 7 Evening.

We are conscious of data protection and will protect the personal data of participants as much as possible. We would say that all phone numbers/e-mail addresses supplied will be visible to other parents, but if we decide to put the information on the website we will only put the area, and the offer/need. Interested parties would need to e-mail a central PA helper, who would pass on the contact details.

If you are interested in becoming the central helper in this scheme, please e-mail <mailto:sali@business-advancement.co.uk>
